Managed Azure Stack

Consume cloud in a way that makes sense for each of your applications in a private, public, or hybrid architecture with Azure Stack.

Companies embracing cloud technologies increasingly recognize the necessity of deploying both public and private cloud solutions to meet their specific business needs. However, this often entails managing multiple technologies and duplicating efforts. Managed Azure Stack by TierPoint delivers a turnkey solution, enabling you to build, run, and innovate on private cloud services in TierPoint's world-class data centers that ensures consistency with the public Azure cloud. With TierPoint, companies can leverage the full benefits of a distributed hybrid cloud environment without the complexities of managing disparate infrastructures.

Experience True Hybrid Capabilities

Seamlessly merge the benefits of a private cloud with the agility of Azure cloud services. With Azure Stack, achieve a harmonious balance between cloud innovation and data sovereignty, accelerating digital transformation initiatives.

Accelerate Your Time to Value

Our team of Azure certified experts and cloud professionals, ensures a seamless deployment, adherence to best practices, and rapid time to value. Our deep expertise and proven methodologies enable a simplified implementation, optimized configurations, and ongoing support driving toward business goals faster.

Unleash Flexibility and Deploy Apps Your Way

Deploy applications exactly as needed, whether in a TierPoint data center, in the public cloud, or both via a hybrid architecture. Tailor deployment models to suit specific requirements and adapt to evolving business needs with Azure Stack's versatile architecture and comprehensive set of services.
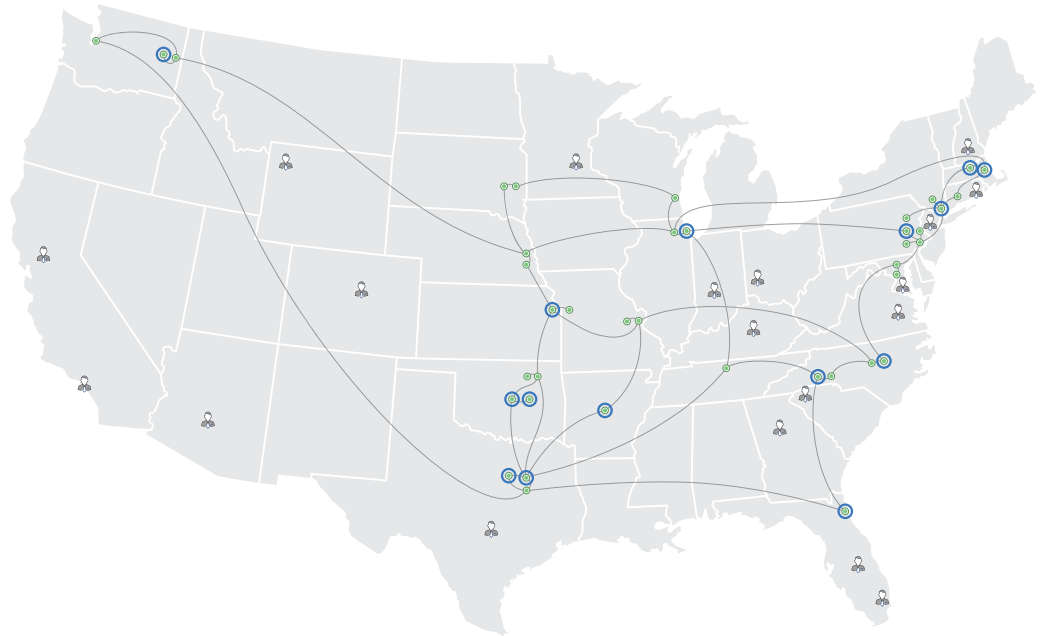

Superior Application Performance and Resilience

Experience low-latency connections, and the ability to tailor resources to meet specific application requirements by deploying in a secure TierPoint data center backed by industry-leading SLAs. Our expert implementation and support of native Azure Backup and Azure Site Recovery, tailored to safeguard your critical data and streamline disaster recovery efforts.

Discover the Unparalleled Reach of Managed Azure Stack by TierPoint

- ◎ Advanced Cooling Options Available
- • High-Density-Capable Colocation Data Centers
- ⚇ Solution Advisors

With a commanding presence across the US, our network of 40 world-class data centers seamlessly connects coast-to-coast. Experience the pinnacle of hybrid IT flexibility within our secure and compliant facilities, where our expert team ensures seamless integration, optimization, and management of your Azure Stack environment.

Premier Hardware Integration with Dell APEX Cloud Platform

Managed Azure Stack by TierPoint leverages cutting-edge hardware from the Dell APEX Cloud Platform, ensuring top-tier performance, reliability, and scalability. With our expert management, you can confidently entrust your infrastructure needs to us, knowing they have access to the latest technology and reliable support to drive their success.

Multi-Layered Security Best Practices

Our data centers uphold industry-leading security practices, featuring 24x7x365 onsite personnel, robust two-factor authentication with biometric systems, video surveillance, secure mantraps, and strict access protocols. Moreover, with Azure security features seamlessly integrated with Azure Stack, you can benefit from an additional layer of protection for your applications and data, ensuring comprehensive security across the entire infrastructure stack.

Our Data Centers Compliance Attestation

Every TierPoint data center maintains compliance certifications, attestations, and registrations including ISO 27001, SOC 1 Type II & SOC 2 Type II, HIPAA/HITECH, GLBA, PCI DSS v3.2.1, NIST SP 800-53, SOC 2 + HITRUST, ITAR, and Privacy Shield.

Choose the Cloud That's Right for You

TierPoint is cloud agnostic. We help companies find the right mix of cloud solutions to meet t heir unique workload needs. Whether it's public, private, hybrid or multicloud deployments, our focus is to find the best venue possible for workloads and applications. Our hybrid flexibility delivers the modern cloud capabilities businesses need today to innovate and remain competitive.

About TierPoint

TierPoint (tierpoint.com) is a leading provider of secure, connected IT platform solutions that power the digital transformation of thousands of clients, from the public to private sectors, from small businesses to Fortune 500 enterprises. Taking an agnostic approach to helping clients achieve their most pressing business objectives, TierPoint is a champion for untangling the complexity of hybrid, multi-platform approaches to IT infrastructure, drawing on a comprehensive portfolio of services, from public to multitenant and private cloud, from colocation to disaster recovery, security, and more. TierPoint also has one of the largest and most geographically diversified U.S. footprints, with dozens of world-class, cloud-ready data centers in 20 markets, connected by a coast-to-coast network.
