

Adapt Next-Generation Firewall

Secure your hybrid-cloud enterprise with expert security skills

TierPoint Adapt Next-Generation Firewall (NGFW) is part of the TierPoint Adapt Platform, a unified security framework designed to deliver end-to-end threat management. Our managed and monitored, high-performance firewall solution provides maximum protection and visibility—wherever your workloads reside. Backed by certified security experts, the Adapt NGFW combines deep packet inspection, threat intelligence, and granular access control with proactive, ongoing management. This help ensure your networks remain secure against both known and emerging threats.

Flexibly scale your firewall solutions seamlessly, spanning from the edge to the public cloud and core infrastructure. Benefit from cutting-edge security solutions and expert guidance. Attain comprehensive visibility into users, devices, and applications, with security policies through a unified single pane of glass approach.

Our security experts will work with you to tailor a firewall solution that meets your performance, protection, and compliance requirements. Then we'll deliver proactive 24x7 management and monitoring.

Our multi-layered security approach and robust portfolio of solutions ensures the optimal security for your critical workloads wherever they may be deployed.

Robust next-generation firewall with proactive management by security experts

Adapt NGFW lets you secure your enterprise with capabilities to include intrusion detection and protection (IDS/IPS), network anti-virus, web filtering, botnet protection, IP reputation, SSL traffic inspection, and application protection. IPsec and remote client access is also included with optional TierPoint Adapt Multi-Factor Authentication (MFA).

For our clients and for our own assets, security is our top priority

- + **Hybrid Cloud** - Consistently secure diverse compute and storage environments that may use public cloud (Azure and AWS), TierPoint private cloud and multitenant cloud, colocation, and on-premises solutions.
- + **Adapt NGFW Capabilities** - Protect your network with IDS/IPS, AV and botnet protection, web content filtering, deep packet inspection, and application control.
- + **IPsec and Remote Client VPNs** - Protect your network traffic with IPsec VPN tunnels and remote client VPNs.
- + **Reduce Risk and Downtime** - Mitigate the business impact of malicious cyber-attacks against your brand reputation and business bottom line with our best-in-class Fortinet NGFWs with certified expert level skills.
- + **Enterprise-Class** - Ensure uniform security policy and gain visibility through a single pane of glass to manage security assets across your enterprise.
- + **Threat Intelligence** - Keep your defenses up-to-date with continuous threat intelligence updates for protection from known and unknown attacks.
- + **Trusted Service Provider** - Our available and responsive security experts provide 24x7 support. We understand the importance of a secure and protected IT environment.
- + **Free Up IT Resources** - Use our security experts to configure, monitor, and maintain your enterprise firewall, so your internal IT teams can focus on strategic business initiatives.
