Public Cloud Assessment & Migration

Cloud is complex. Get it right from the start with comprehensive migration frameworks, automation tools, and experienced AWS and Azure architects.

The right roadmap sets the path from current state to what's possible. It designs a plan to deliver the right cloud environment to meet each of your workload needs. We can help you understand your cloud options, define your cloud strategy, and deploy cloud capabilities that can transform your business.

Accelerate your cloud outcomes and mitigate disruptions and risks.

Whether it's simple and straightforward, or it's large-scale and complex - we meet you where you are on your cloud journey and scale to your needs.

Methodology
A proven migration approach establishes transition frameworks to deliver your best cloud outcomes.

Tools
A series of proven technologies delivers automation and ensures a smooth transition of applications.

Expertise
Certified cloud architects bring a depth of experience and leads you through the entire cloud migration lifecycle.

Enablement
Ongoing management and support by a team of dedicated public cloud engineers and experts, frees your team and ensures performance at the highest levels.

Our 3-Step Approach

1. Assess, Plan & Design
We scan & assess your infrastructure and design a cost-justified migration plan

2. Migrate to the Cloud
Agile and lean processes with built-in automation, ensures a successful migration

3. Maintain Best Practice
We seamlessly assume day-to-day management and monitoring so you can ensure optimization of your cloud assets
