

EXPAND YOUR CLOUD CAPABILITIES

# MANAGED AZURE

## Scalability with Seamless Integration

Business requirements can change at any given time. This requires a flexible, scalable infrastructure that can adapt as needed. By incorporating a hybrid IT strategy, you will maximize workload performance and minimize cost ensuring you will have access to IT resources quickly, easily and securely.

Additionally, leveraging TierPoint Managed Azure as part of your cloud platform, assures you seamless integration with your unique workloads, such as SQL Server, SharePoint and Office 365, across your on-premises, public and private clouds. It also enables you

to use the same virtual machines in Azure that you currently use on premises, or store in a private cloud to further simplify your IT operations and make the most of its time.

Leveraging Azure as part of your cloud platform, assures you **SEAMLESS INTEGRATION** with your unique workloads across your on-premises, public and private clouds.

## TierPoint Managed Azure

A managed cloud solution can reduce the complexity of Azure by providing an integrated approach to planning and implementing your environment. By outsourcing the management of your cloud infrastructure to TierPoint, you can focus your IT resources on projects that add value to the business while giving you the peace of mind that you are delivering consistent, reliable, and secure applications. You'll get the most out of your Azure or hybrid investment with additional support including, monitoring, security, patching, and 24x7x365 access to dedicated engineers.

### Freedom to Innovate

TierPoint Managed Azure frees up both IT headcount and resources you can use to focus on projects that set your business apart from the competition.

### Ease of Scalability

Azure enables you to easily scale up or down to meet your specific organizational demands and with TierPoint Managed Azure, you pay only for what you use.

### Improved Agility

TierPoint Managed Azure lets you add scale on demand, respond faster to market opportunities, enhance security capabilities, and take advantage of the flexibility of a hybrid cloud.

Our consultative approach incorporates your **UNIQUE BUSINESS REQUIREMENTS** so you get a solution designed around your vision.
