MANAGED SAP S/4HANA PRIVATE CLOUD
powered by NTT Data and Dell Technologies

Get the Performance and Cost Control You Want to Enable More Impactful, Data-Driven Business Decisions

IT responsibilities are ever-expanding and becoming more complex. The range of applications continues to grow, as are compliance mandates, scalability needs, and data security requirements. To compete more effectively, growing companies are turning to cloud-based, managed SAP solutions by extending their internal IT teams with experienced and certified experts.

TierPoint's Managed SAP S/4HANA combines a best-in-class, high-availability private cloud platform with a team of SAP Managed Cloud experts, so you can rapidly deploy, flexibly scale, and conveniently manage applications with dedicated compute, memory, and storage resources at a TierPoint data center. SAP S/4HANA is an Enterprise Resource Planning software system that can revolutionize business processes with NTT Data automation. Designed by experienced SAP architects and backed by a team of SAP experts, our managed solution leverages our unique capabilities for design, optimization, and migration, and our certified specialists fully administer your business-critical SAP applications.

SAP Expertise from NTT Data

A Global Platinum SAP Partner and international full-service SAP-only solution and consulting company with a global presence in 28 countries and over 7,000 customers.

Improve Agility

Scale up to meet changing business needs. Services can be accessed on demand, providing the flexibility to adjust workload capacities as your business grows.
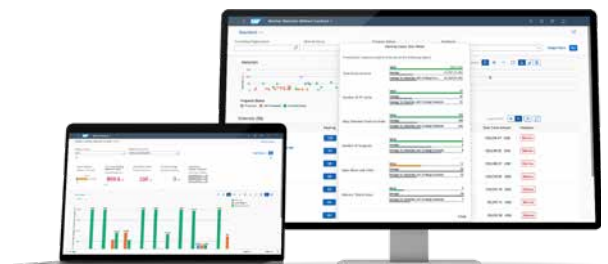

Customized to You

Our team works to understand your business challenges and needs. You determine the right platform for each of your applications. So whether it's private cloud, multi-tenant, colocation or within your own data center, we can coordinate a solution across multiple complex IT environments.

Free Up Your IT

Offload SAP Basis Management, patching, updates, maintenance, implementation and monitoring of your infrastructure and SAP solutions. We reduce complexity with a full suite of managed IT services.
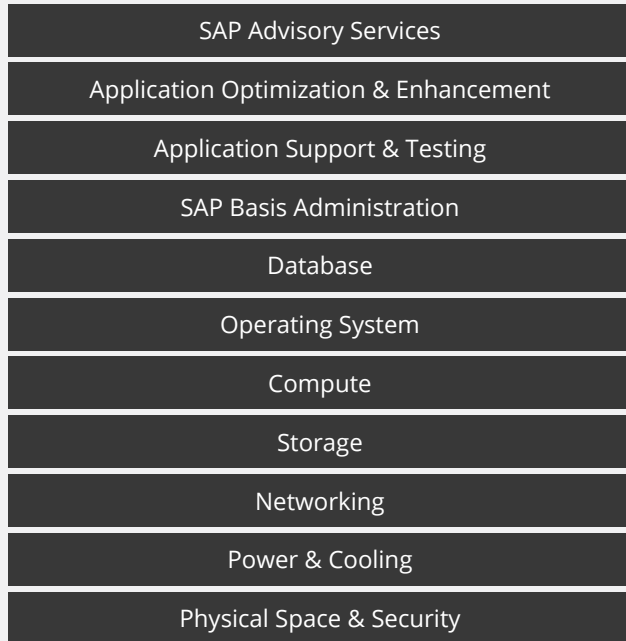

Trusted Service Provider

Receive integrated customer support and best practice architecture planning, implementation, migration and optimization.
