

TierPoint Network Matrix: Carriers

Updated: January 2025

Our Nationwide Network Portfolio Brings the Internet Closer to You

Whether you're serving up lots of content, have unpredictable network traffic or want to leverage the Internet of Things (IoT) as part of a digital transformation initiative, we can deliver reliable low-latency connectivity even in second- and third-tier markets.

Edge Data Centers with Carrier Density, Cloud On-Ramps, and Less Latency

Get close to your users and cut latency with robust local networking across our 40 TierPoint data centers. Our network edge facilities provide fast last-mile connectivity for content, and local data processing for IoT businesses.

Resilient Facilities with Carrier Access

Ensure top performance and uptime with premier engineering, fiber infrastructure served by multiple Tier 1 carriers, redundant power, physical security, and in-house technical expertise, in a safe and secure TierPoint environment.

The below list of TierPoint facilities highlights network carriers with "in-facility" assets.

About TierPoint

TierPoint (tierpoint.com) is a leading provider of secure, connected IT platform solutions that power the digital transformation of thousands of clients, from the public to private sectors, from small businesses to Fortune 500 enterprises. Taking an agnostic approach to helping clients achieve their most pressing business objectives, TierPoint is a champion for untangling the complexity of hybrid, multi-platform approaches to IT infrastructure, drawing on a comprehensive portfolio of services, from public to multitenant and private cloud, from colocation to disaster recovery, security, and more. TierPoint also has one of the largest and most geographically diversified U.S. footprints, with dozens of world-class, cloud-ready data centers in 20 markets, connected by a coast-to-coast network.
