

BUSINESS CONTINUITY SEATING

SPOKANE (SPO)

TierPoint's Business Continuity Seating provides your employees with a resilient office space for offsite business recovery, keeping you up and running when disaster strikes.

Perfect Proximity

Spokane is geologically one of the safest locations in the United States. Our Spokane data center facility is located on the eastern side of the state of Washington and is only 300 miles from Seattle, and 360 miles from Portland (both easily drivable in a single day).

Minimized Risk

The TierPoint Spokane data center is located in an area that does not typically experience severe weather from hurricanes, tornadoes, or earthquakes, and it is located outside of major threat zones, making it a secure location for business continuity seating.

Spokane (SPO01 - 02) - 23403 E. Mission Avenue, Liberty Lake, WA 99019
