

Chicago - Polk

Located in the heart of Chicago, just west of the Loop, our Chicago - Polk facility is one of over 40 facilities across the US and part of a network with guaranteed exceptional performance and low latency connections. We are a trusted provider to thousands of customers across all industries. Thanks to the unique history of this building and its modernized infrastructure, whether you need a server rack, a full cabinet, or a suite of customized managed services — we have the IT professionals, security specifications, and resilient infrastructure designed to meet your business needs.

Our Commitment

Carrier Neutrality and Redundancy

By having multiple on-net carriers and supporting cross connects to other carriers, you get access to the Internet bandwidth and connectivity services of your choice.

Security

With a company-wide emphasis on security and compliance, our team adheres to strict, well-documented security processes.

Responsiveness and Expertise

All of our data centers are supported by passionate IT professionals focused on client success, responsiveness to client requirements, and who have the technical expertise and desire to help you achieve their business goals.

Scalability

At TierPoint we scale with you. All our data centers are built to meet growing demands for Disaster Recovery, cloud services, and managed services.

Our Facility

National Reach

With one of the largest and most geographically diverse footprints in the nation, we deliver secure, reliable and connected infrastructure solutions.

Compliance

Audited under SOC 1 Type II, SOC 2 Type II, SOC 2 + HITRUST, GLBA, HIPAA, PCI-DSS¹ annually, is ISO 27001 certified², and ITAR and EU-US Privacy Shield³ registered.

Low Latency

Achieve high performance and low latency by having your critical infrastructure closer to your employees and end-users.

Reliability

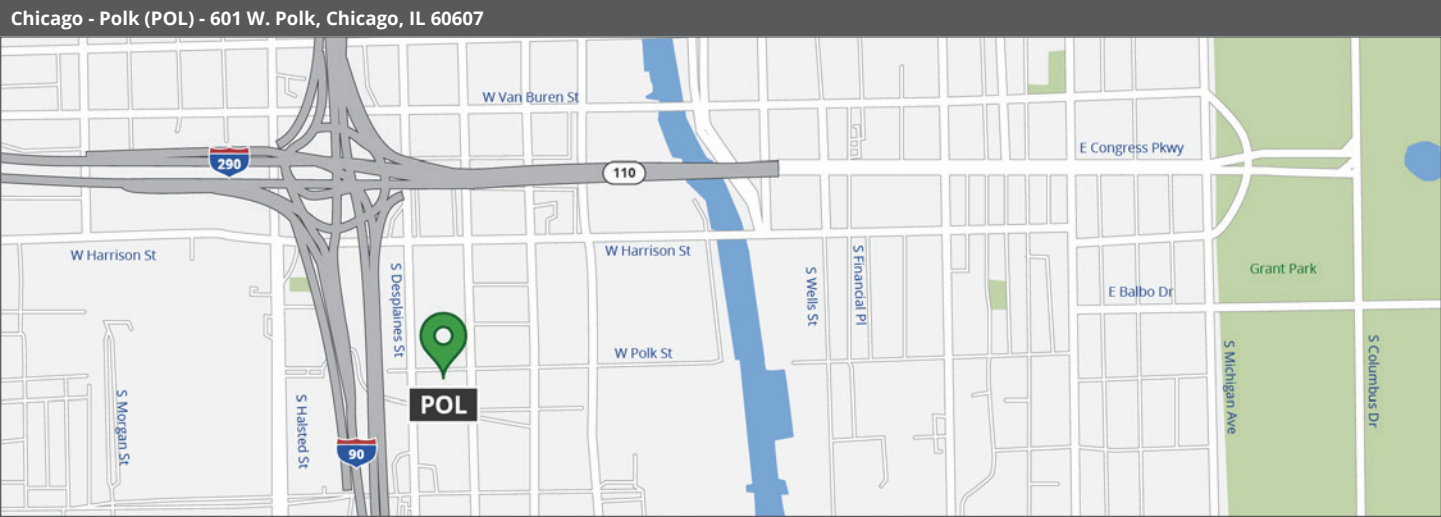

Your IT infrastructure and related components are guaranteed by a 100% uptime SLA, supported by a local, dedicated team of IT professionals who are focused on delivering consistent and superior services.

High-Performance and AI Compute

Our cutting-edge Chicago-Polk facility has been engineered to accommodate your demanding high-performance GPU / AI computing applications, with a capacity of up to 85kW per cabinet with optimal configurations and supported by liquid cooling capabilities.

1. Data Center Colocation Services (NIST Moderate baseline). 2. ISMS and data center colocation. 3. EU Standard Contractual Clause/DPA template available.
