

KANSAS CITY - LENEXA

Our state-of-the-art facility, one of two in the Greater Kansas City area, the Kansas City - Lenexa data center is one of over 40 facilities across the US and part of a network with guaranteed exceptional performance and low latency connections. We are a trusted provider to thousands of customers across all industries. Our facility, can support whether you need a server rack, a full cabinet, or a suite of customized managed services. We have the IT professionals, security specifications, and resilient infrastructure designed to meet your business needs.

Our Commitment

Carrier Neutrality and Redundancy

With our carrier-neutral facility including multiple Tier I providers on-net, diversely routed, you get access to the Internet bandwidth and connectivity services of your choice. Multiple, diverse fiber feeds, with dark fiber connectivity also available at our Kansas City - Lenexa facility.

Security

With a company-wide emphasis on security and compliance, our team adheres to strict, well-documented security processes.

Responsiveness and Expertise

All of our data centers are supported by passionate IT professionals focused on client success, responsiveness to client requirements, and who have the technical expertise and desire to help you achieve their business goals.

Scalability

At TierPoint we scale with you. All our data centers are built to meet growing demands for Disaster Recovery, cloud services, and managed services.

Our Facility

National Reach

One of two enterprise-class TierPoint data centers in the metropolitan area, our Kansas City - Lenexa data center is part of one of the largest and most geographically diverse footprints in the nation. We deliver secure, reliable and connected infrastructure solutions.

Compliance

Located outside of a 500-year flood plain, our facility is audited under SSAE 18 SOC 2 Type II, PCI-DSS*, GLBA and HIPAA standards annually and is ITAR and EU-US Privacy Shield registered.

Low Latency

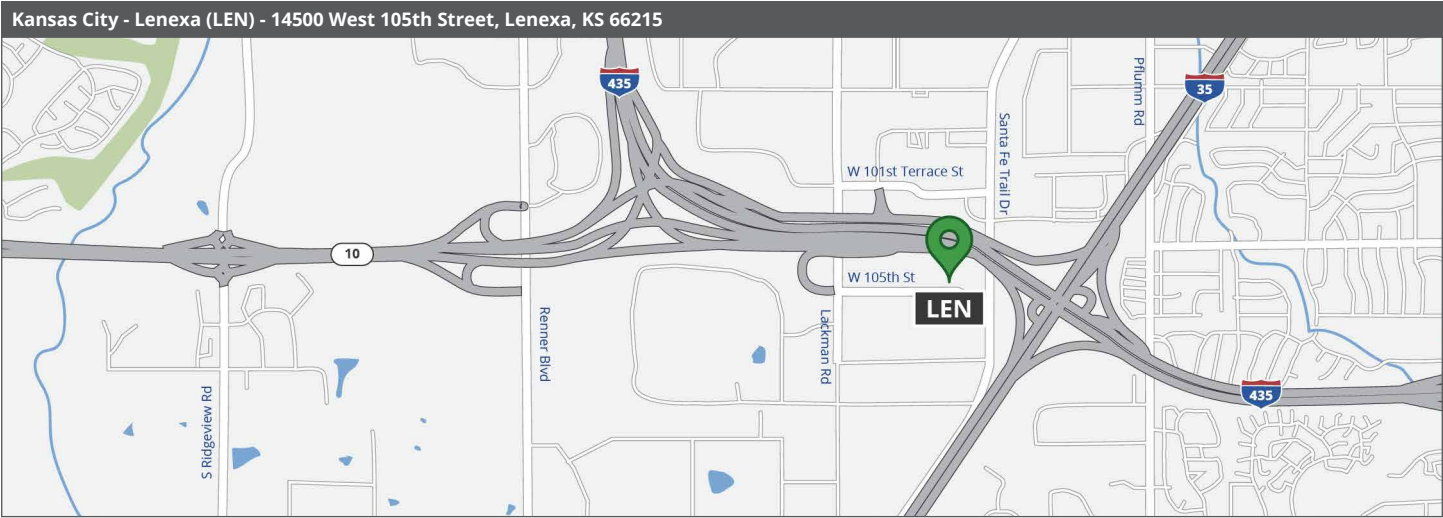

Achieve high performance and low latency by having your critical infrastructure closer to your employees and end-users.

Reliability

Your business critical applications are backed by a 100% uptime SLA guarantee, supported by a local and dedicated team of IT professionals who are focused on delivering consistent and superior performance.

*PCI-DSS Attestation of Compliance on Requirements 9 & 12 (Physical Security and Information Security Policies) on data center (colocation) services. Colocation provides secure space, power, and environmental controls for merchants and service providers, some of which fall under PCI compliance. No logical access to any customer systems that may contain cardholder data.
