

CHARLOTTE - NORTH MYERS

TierPoint's Charlotte - North Myers data center, one of five in North Carolina, is part of over 40 facilities across the US with guaranteed exceptional performance and low latency connections. Here to help your organization manage risk, drive performance and improve agility, we are a trusted provider to thousands of customers across all industries. Whether you need a server rack, a full cabinet, or a suite of customized managed services — we have the IT professionals, security specifications, and resilient infrastructure designed to meet your business needs.

Our Commitment

Carrier Neutrality and Redundancy

With multiple on-premises carriers, and cross connects to other carriers, you get access to the Internet bandwidth and connectivity of your choice.

Security

Our Charlotte - North Myers facility is monitored around the clock by on-site engineers. A company-wide emphasis on security and compliance, our teams adhere to well-documented security processes.

Responsiveness and Expertise

Our data centers are supported by IT professionals focused on client success, responsiveness to client requirements, and who have the expertise and desire to help you achieve your goals.

Scalability

At TierPoint we scale with you. All our data centers are built to meet growing demands for Disaster Recovery, cloud services, and managed services.

Our Facility

National Reach

Our Charlotte - North Myers is one of five data centers located in North Carolina, and part of a network of over 40 facilities. We offer one of the largest and most geographically diverse footprints in the nation.

Compliance

With a company-wide emphasis on compliance and security, our Charlotte - North Myers facility is audited under SSAE 18 SOC 2 Type II, GLBA and HIPAA standards annually and is ITAR and EU-US Privacy Shield registered.

Low Latency

Achieve high performance and low latency by having your critical infrastructure closer to your employees and end-users, with colocation options in our Charlotte - North Myers facility.

Reliability

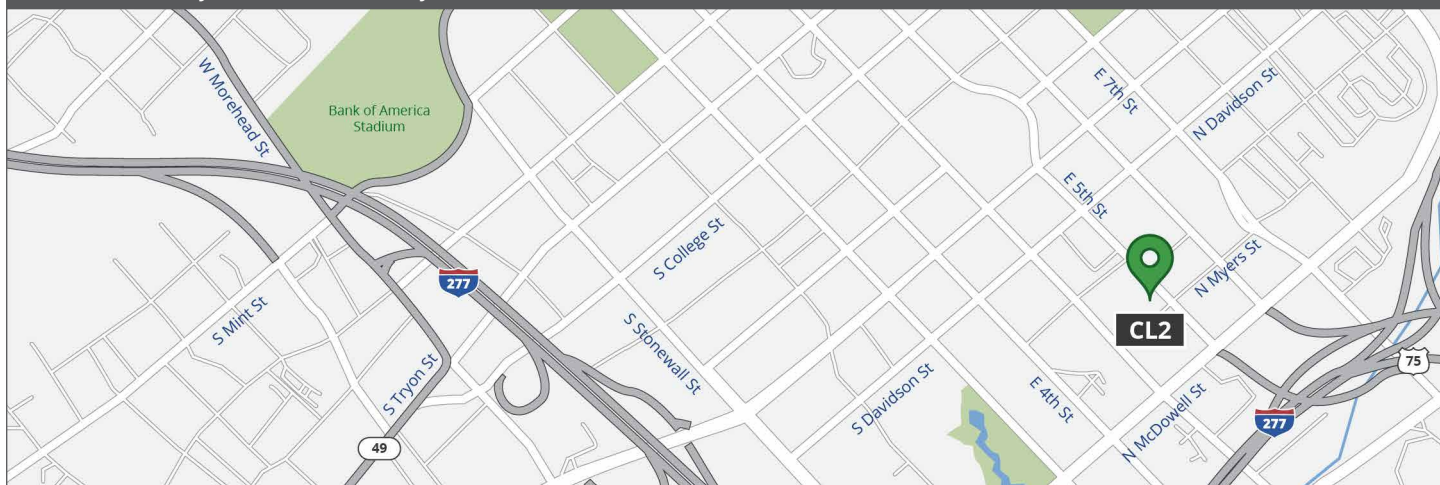

Our building is strategically located outside of severe weather and seismic zones and rated to withstand hurricane-force winds. Your business-critical applications are backed by a 100% SLA guarantee, supported by a team of cloud certified IT professionals.

*PCI-DSS Attestation of Compliance on Requirements 9 & 12 (Physical Security and Information Security Policies) on data center (colocation) services. Colocation provides secure space, power, and environmental controls for merchants and service providers, some of which fall under PCI compliance. No logical access to any customer systems that may contain cardholder data.
