

TULSA - ARCHER

Located in the historic Brady district north of downtown, TierPoint's Tulsa - Archer facility is one of over 40 facilities across the US and part of a network with guaranteed exceptional performance and low latency connections. We are a trusted provider to thousands of customers across all industries. Our state-of-the-art facility, located in the heart of the nation's energy belt, can support whether you need a server rack, a full cabinet, or a suite of customized managed services. We have the IT professionals, security specifications, and resilient infrastructure designed to meet your business needs.

Our Commitment

Carrier Neutrality and Redundancy

By having multiple on-net carriers and supporting cross connects to other carriers, you get access to the Internet bandwidth of your choice. Multiple, diverse fiber feeds, and TierPoint - provided, redundant IP bandwidth available with 10 Gbps connectivity.

Security

With a company-wide emphasis on security and compliance, our team adheres to strict, well-documented security processes.

Responsiveness and Expertise

All of our data centers are supported by passionate IT professionals focused on client success, responsiveness to client requirements, and who have the technical expertise and desire to help you achieve their business goals.

Scalability

At TierPoint we scale with you. All our data centers are built to meet growing demands for Disaster Recovery, cloud services, and managed services.

Our Facility

National Reach

Our Tulsa - Archer facility is part of one of the largest and most geographically diverse footprints in the nation. We deliver secure, reliable and connected infrastructure solutions.

Compliance

Our Tulsa - Archer facility is audited under SSAE 18 SOC 2 Type II, PCI-DSS*, GLBA and HIPAA standards annually and is ITAR and EU-US Privacy Shield registered.

Low Latency

Achieve high performance and low latency by having your critical infrastructure closer to your employees and end-users, with colocation options in our Tulsa - Archer facility.

Reliability

Your business critical applications are backed by a 100% uptime SLA guarantee, supported by a local and dedicated team of IT professionals who are focused on delivering consistent and superior performance.

*PCI-DSS Attestation of Compliance on Requirements 9 & 12 (Physical Security and Information Security Policies) on data center (colocation) services. Colocation provides secure space, power, and environmental controls for merchants and service providers, some of which fall under PCI compliance. No logical access to any customer systems that may contain cardholder data.
